

Coprosma 'Inferno'

With its rich and saturated colors, *Coprosma 'Inferno'* is most probably the most striking *Coprosma*. The fiery glossy, orange and red leaves of 'Inferno' are an absolute eye-catcher in the garden, all year long. In fall 'Inferno' keeps on surprising you, when the leaves change color to dark red shades. 'Inferno' is an absolutely trouble-free shrub that requires little maintenance and is not susceptible to pests and diseases. Position the plant in the sun or partial shade in well drained soil. In winter it must be protected from frost. 'Inferno' is an ideal patio plant. A mature plant is about 5 ft (1.5 m) high and wide.

Coprosma

Coprosma 'Lemon and Lime'

The deep glossy variegated leaves of *Coprosma* 'Lemon and Lime' have spectacularly sparkling colors. The bright yellow ovate leaves have beautiful irregularly shaped bright green edges.

Unlike the other *Coprosma* cultivars, 'Lemon and Lime' retains these bright colors in winter. 'Lemon and Lime' is disease and pests resistant and grows in any soil. It grows in full sun or partial shade in a compact upright bush and is only partly hardy.

'Lemon and Lime' therefore prefers a sheltered spot on the patio. Without pruning, the plants is in five years approximately 5 ft (1.5 m) wide and high.

EU26072

Coprosma 'Fireburst'

The ovate leaves of *Coprosma* 'Fire Burst' are deep dark green with a beautiful orange border along its perimeter. Over time, the edge changes color to orange-red and finally to exceptionally beautiful deep red. In autumn the leaves color dark green to deep orange with flaming hues. With its orange and red hues, 'Fire Burst' is a beautiful flaming appearance in the border.

EU15123

Coprosma 'Rainbow Surprise'

Rainbow Surprise has dark green leaves and is lined with a wide creamy-yellow colored edge. The leaf edges of older leaves surprisingly fade to red. In autumn the leaves change color into beautiful orange-red hues, while the green spots remain visible.

EU11595

Coprosma 'Evening Glow'

Coprosma 'Evening Glow' was discovered in New Zealand. With its high impact foliage and tropical color it has year around impact. During the summer it has green ovate leaves with yellow spots. In autumn and winter, the leaves fade to brilliant orange-red hues. As the temperature drops, the leaves turn darker. The leaf of 'Evening Glow' is by nature deeply glossy, therefore *Coprosma* is also known as 'mirror plant'.

'Evening Glow' is not fully hardy, but in sheltered places it grows into a shrub of 5 ft (1.5 m) high and wide.

Coprosma 'Evening glow' is highly resistant to salty winds and therefore perfectly suitable for coastal areas. With its sturdy evergreen leaves, 'Evening Glow' is very drought resistant. 'Evening Glow' is also extremely suitable as a patio plant.
